London *BUQI* Clinic

Kailash Centre of
Oriental Medicine
7 Newcourt Street
London NW8 7AA

The London Buqi Clinic, established in 1995, is based at the Kailash Centre of Oriental Medicine adjacent to Tibet House in St John's Wood, London. All therapists hold the Diploma of Buqi Healing.

Hilary Thompson runs the Clinic under the direction of Dr Shen Hongxun. Hilary has worked closely with Dr Shen since 1997, assisting him on training courses throughout Europe. She also teaches and has a practice in Sussex.

Sheila Green is a Buqi therapist and has worked with Dr Shen for 6 years. She uses sound vibration during treatment and for healing work with groups.

Anita Shen has worked with Dr Shen for 9 years. She began teaching in 1999 and has been based at the Kailash Centre for four years. She has spent two years as Manager of Shen Hongxun College.

Edmond Williams has a background in Traditional Chinese Medicine. He has an established practice and uses Buqi together with acupuncture and herbs.

The founder, Dr Shen Hongxun created the Buqi treatment system based on over forty years of scientific research. In 1987, at the invitation of three European universities, he brought the knowledge of Buqi to the Western world. He now teaches a busy schedule of international courses in Buqi, Taiji 37 Taijiwuxigong, and Wuxi Meditation.

London Clinic

BUQI

Energy Therapy

Buqi is a 21st Century treatment, bringing together special energy forces as developed by generations of T'ai Chi Chuan Masters, with Traditional Chinese Medicine and the latest scientific thought on vibrational therapy.

Buqi treats the real causes of ill health by expelling negative chi from the body and breaking through the pattern of disease, allowing health and wellbeing to return naturally.

How Buqi Works

Buqi treats both the physical and mental / emotional aspects of ill health, which are so often interrelated and feed each other.

Buqi also addresses posture and problems in the spinal column, which cause many seemingly unconnected health problems. Forty different diseases have now been recognised by the medical profession as being linked to problems of the spinal column.

The therapist not only removes toxic and unhealthy factors from the body of the patient, but also

transmits Health Information. This boosts and strengthens the innate vital force, which increases the body's natural ability to heal and rebalance itself.

What A Treatment Involves

Buqi treatment begins with a brief discussion and a diagnosis. Buqi has very effective and thorough diagnostic techniques.

Treatment follows using a range of techniques to transmit special energy forces, which access the body's nervous, cardiovascular, hormonal, and muscular systems. The practitioner may also use sound vibration.

The patient is treated fully clothed, from a distance and no needles or instruments are used. The Buqi practitioner may recommend some simple exercises along with dietary and lifestyle advice.

Buqi is suitable for the whole family and children respond well. Most conditions will benefit after the first treatment, sometimes dramatically.
